Mr. Thomas Griffith
72 ABW/CEE
7535 5th Street
Tinker AFB OK 73145-9010

Dear Sir

I wish to express my appreciation for the solid work and professionalism demonstrated by your Tinker crews this year. Your company has been the answer to our need for roof replacements on our large hangar and production facilities – some of the Air Force's largest. The magnitude of our need is staggering and you have been quick to respond. In fact, we have contracted for nearly \$2.8 million in roof repairs at Tinker through your company in the last year.

With your current leadership and quality control oversight, your team is providing roofs that are some of the best I've seen in my 35 year Civil Engineering career. The workmanship and thoroughness of your crews was evident last week when I visited the roof of building 3703 with the Oklahoma Air Logistics Center Facilities Chief Engineer. While replacing this roof, your crews had to be extremely flexible in their daily operations to allow on-going jet engine tests while keeping the roof secure.

Please express our appreciation to Mr. Tons and his crews for the quality of the work they are performing for Tinker Air Force Base. We hope you will continue to provide us with the responsive capability we have come to depend upon.

Respectfully
