Mr. Patrick Tons
President
Pat Tons Roofing, Repairs and Consulting
7521 Leading Oaks
Live Oak, Texas 78233

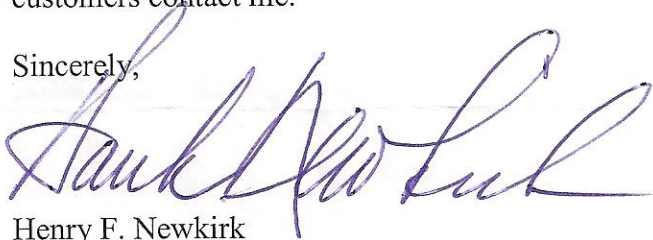

Dear Pat,

I commend you and your outstanding work crew for the fine job that everyone did replacing our roof. All work was completed in a very professional manner. Everything was immaculate when you were finished. This job required removing all the old shingles and felt down to the bare wood deck. After this was completed several areas of the decking were found to contain rotten wood. All this was repaired and the job completed very quickly in spite of the extra work needed.

The ridge vents you installed are a big improvement to the original turbine roof vents that were on the house. Also, there were several other improvements to the roof which made it much better than when it was installed the last time by another roofing company. Your interfacing with my insurance company along with the many pictures you provided them were very helpful in settling my damage claim.

Thank you for the fine job you did. If you need any references, feel free to have your customers contact me.

Sincerely,

Henry F. Newkirk
