Live Oak, Texas 78233

Dear Mr Tons,

This letter will serve as a letter of reference and recommendation to future potential customers of your business. Your company recently completed replacement of two sections of the roof on my house.

You provided a detailed estimate — far more detailed than was provided by any other roofer I contacted. Your price was in line with other estimates, and included materials which, according to other knowledgeable sources I conferred with, were of the highest quality. You were professional in your presentation and thorough in your planning. The work was done in a timely manner and, I believe, to a high standard of quality. Where there were necessarily uncertainties in the proposal, I found that you and your crew were judicious in the repairs needed, and thorough in their execution, to ensure the overall quality of the completed job.

I have already recommended you to others I know who may need your services, and will continue to do so.

Yours truly,

Paul R. Stone
